Farr Yacht Design Ltd. is internationally recognized as one of the leading yacht racing design teams, with over 25 years of experience and around 40 world titles won with boats designed by the company.

The FARR YACHT DESIGN 50 is one of the team's projects, featuring a carbon hull, mast, and boom, two ballast tanks (3,000 liters each), and a 4.10m keel, combining low weight and high stability to ensure maximum speed and maneuverability in all sea conditions. Equipped with a Lombardini 40Hp engine, two alternators, and a sail drive with folding propeller, the Farr 50 offers mechanical reliability together with a full set of navigation and safety equipment: radar, GPS/plotter, two independent autopilots, life raft, EPIRB, among others.

The sail plan includes a new mainsail (2023), two genoas, one storm jib, and two spinnakers.

Without a doubt, it is a very attractive option for those looking for a performance yacht.
